

Two Conductor Solderless  
Lugs

TYPE: A2B2/A2B4

**'PosiGrip'**

90°C RATING (486B LISTED)  
**Patented**

- The unique ridges formed on the bottom of the contact surface are designed to provide contact points for an electrically secure joint of the lowest resistance for current flow.
- The screws used to clamp the conductors are designed to extend beyond the barrel sides of the conductor to allow a better, more secure compression of the conductor. This design spreads the conductor strands to help dissipate heat, and improve its pullout safety features and capabilities.
- The design of the wire way provides optimum transfer of current, creating a straight-line flow through the connector for the least possible path of electrical resistance. A positive wire stop is also provided.

Catalog Number	Fig. No.	Screw Type	Cond. Range AWG	Dimensions, Inches					
				H	W	L	G	D*	T
A2B2-350	1	.31H	350 - 6	1.18	2.9	5.37	0.63	0.56	0.25
